

Fund Details

The United States Gasoline Fund® LP (UGA) is an exchange-traded security that is designed to track the daily price movements of gasoline. UGA issues shares that may be purchased and sold on the NYSE Arca.

The investment objective of UGA is for the daily changes in percentage terms of its shares' net asset value (NAV) to reflect the daily changes in percentage terms of the price of gasoline (also known as reformulated gasoline blendstock for oxygen blending, or "RBOB"), for delivery to the New York harbor, as measured by the daily changes in the price of UGA's Benchmark Futures Contract, plus interest earned on UGA's collateral holdings, less UGA's expenses.

UGA's Benchmark Futures Contract is the futures contract on gasoline as traded on the NYMEX that is the near month contract to expire. If the near month contract is within two weeks of expiration, the Benchmark will be the next month contract to expire.

UGA invests primarily in RBOB futures contracts, and to a lesser extent, in order to comply with regulatory requirements, risk mitigation measures (including those that may be taken by UGA, UGA's futures commission merchants, counterparties or other market participants), liquidity requirements, or in view of market conditions, other gasoline-related futures contracts, forwards and swap contracts. These investments will be collateralized by cash, cash equivalents, and US government obligations with remaining maturities of two years or less.

Performance

	1 Mo	3 Mo	YTD	1 Yr	5 Yr	10 Yr	Since Inception Cumulative (2/26/2008)	Since Inception Annualized (2/26/2008)
UGA (NAV)	3.33%	2.13%	2.13%	-9.52%	44.48%	6.31%	28.56%	1.48%
Share Price	4.95%	9.31%	9.31%	-9.42%	44.69%	6.31%	28.50%	1.48%
Benchmark	5.00%	9.40%	9.40%	-12.75%	42.36%	5.33%	22.99%	1.22%

The performance data quoted above represents past performance. Past performance is not indicative of future results. Investment return and value of the Fund shares will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted. Performance data current to the most recent month end may be obtained by visiting www.uscfinvestments.com.

The Fund's NAV is calculated by dividing the value of the Fund's total assets less total liabilities by the number of shares outstanding. Share Price returns are based on closing prices for the Fund and do not represent the returns an investor would receive if shares were traded at other times.

UGA seeks to manage its portfolio such that the average daily changes in its NAV over any rolling 30-day period is within 10% +/- of the average daily change in the price of the benchmark.

This investment is not suitable for all investors. Funds that focus on a single sector generally experience greater volatility.

Fund Benefits

- UGA has features including, intra-day pricing, and market, limit, and stop orders.
- UGA offers commodity exposure without using a commodity futures account.
- UGA provides portfolio holdings, market price, NAV and TNA on its website each day.

United States Gasoline Fund, LP

Total Net Assets	\$89,987,158
CUSIP	91201T102
Primary Exchange	NYSE Arca
Total Expense Ratio	1.17%

Important Considerations

- **UGA® is not a mutual fund or any other type of Investment Company within the meaning of the Investment Company Act of 1940, as amended, and UGA is not subject to regulation thereunder.**
- **This investment is not suitable for all investors.**
- **Commodity trading is highly speculative. Commodity prices and futures generally are volatile and are not appropriate for all investors. UGA is speculative and involves a high degree of risk. UGA is likely to be volatile and could suffer from periods of prolonged decline in value. An investor may lose all or substantially all of an investment in UGA. Funds that focus on a single sector generally experience greater volatility.**
- **The Fund is not operated in a fashion such that its NAV will reflect the percentage change of the price of any particular futures contract as measured over a time period greater than one day. It is not the intent to operate the Fund in a fashion such that its per share NAV will equal, in dollar terms, the spot price of any particular futures contract.**
- **There is the risk that the daily changes in the price of UGA's shares on the NYSE Arca will not closely track the changes in the spot price of gasoline. This could happen if the price of shares traded on the NYSE Arca does not correlate closely with UGA's NAV; the changes in UGA's NAV do not closely correlate with the changes in the price of the Benchmark Futures Contract; or the changes in the price of the Benchmark Futures Contract do not closely correlate with the changes in the cash or spot price of gasoline. If these correlations do not exist, then investors may not be able to use UGA as a cost-effective way to invest indirectly in gasoline or as a hedge against the risk of loss in gasoline-related transactions.**
- **UGA could terminate at any time and cause the liquidation of your investment which may upset the overall maturity and timing of your investment portfolio. An unanticipated number of redemption requests during a short period of time could have an adverse effect on the NAV or UGA.**
- **UGA may not earn trading gains sufficient to compensate for the fees and expenses that it must pay, and as such, it may not earn any profit. You should not invest in UGA if you will need cash distributions from UGA to pay taxes on your share of income and gains of UGA, if any, or for any other reason.**
- **Shares of UGA may be purchased or sold throughout the day through any brokerage account which will result in typical brokerage commissions. Investors buy and sell shares in the secondary market (i.e., not directly from UGA). Only authorized purchasers may trade directly with UGA in minimum blocks of 50,000 shares.**
- **K-1s and K-3s will be available for tax reporting purposes. You may download them electronically through a link on each fund's website.**
- **USCF has voluntarily agreed to pay certain expenses typically paid by UGA that exceeds 0.15% of NAV on an annualized basis. USCF may discontinue this arrangement at any time, which could negatively impact an investment in UGA.**
- **The United States Gasoline Fund is distributed by ALPS Distributors, Inc., administered by The Bank of New York Mellon and United States Commodity Funds LLC is the Sponsor.**
- **ALPS Distributors, Inc. is not affiliated with The Bank of New York Mellon.**
- **UGA United States Gasoline Fund® and Design mark are registered trademarks of The United States Commodity Funds LLC. The United States Commodity Funds® is a registered trademark. All rights reserved.**
- **© Copyright 2007-2025 United States Gasoline Fund. All rights reserved.**
- **Shares of UGA are not FDIC insured, may lose value and have no bank guarantee.**
